

Wake up small towns – it's time to be active!

18th – 26th September 2012

Trzcianka, Poland

Hello everybody!

This is the 2nd infopack for you!

Just to remind you:

We are TSD Sport club from Trzcianka!

Our project got a grant from **Youth in Action Programme**

We are meeting on **18th - 26th September 2012**

There are 5 countries invited: **Bulgaria, Italy, Slovakia, Slovenia and Poland.**

Each country has to send 6 participants plus 1 leader.

So what is 2nd infopack about?

There is **some practical info** about the exchange that we would like to share with you!

1. **Communication**
2. **Accommodation, weather conditions**
3. **Cultural nights and what to bring?**
4. **Partner workshops - what to prepare in advance**

So!

About communication:

We have created a **FB group** which we would like you to **join asap** to make to communication easier and to start getting to know each other. We would also prepare some kind of **introducing game** but we need to wait for all of you so...let's enroll in the project group! <http://www.facebook.com/groups/337185069705642/> - here it is!

About accommodation and weather conditions:

You will be staying in the **one and only hotel** in Trzcianka!;) Conditions are very nice, you will have **access to many facilities** like gym, tennis courts, playgrounds, beaches etc. More info about the hotel you can find at: www.hotel.trzcianka.pl so I will not add here any photos as you've got there everything!:)

And **about the weather** you need to **be prepared for everything!** It can be both very warm during the day and very cool at night... So take warm clothes and shorts as well. It can be

rainy also, but **we would have so called “plan B” for every outdoor activity** so don't worry!:) It would be great time for you!

About cultural evenings and what to bring:

We have planned cultural evenings on our exchange to be totally organized by participating countries! If you checked the schedule you can see there's no dinner – what means: you will prepare it for everybody! Each country has the amount of **100 euro to spend on food and other things you would use for national evening** (we will reimburse it in Trzcianka). You can either **buy it in your country** and bring it to Trzcianka or **find it here in our shops** (we are importing some stuff to Poland;p). You will be allowed to get into the kitchen and have time to **cook sth delicious** (we hope;p) **for whole group** (35 people).

Than after your national dinner you would be expected to **present a bit of your cultures**. It depends on you what would that be. It can be everything from presentations, dance teaching, quizzes or whatever you would like to do! Just share with the other a piece of yourselves;) A night can end in a disco, karaoke, chatting, playing etc. **We believe that you will do your best** to make your evening attractive;)

About partner workshops and what to prepare in advance:

As we are expected to cooperate in the project we decided to let the other organizations share their experience and competences. The project is about being entrepreneurial and taking the initiative so we would like to have workshops connected with organizing events, PR, marketing, management etc. There are **4 free workshops** to prepare by partner organizations. **From the energizers through main matter to evaluation**. You are free to decide how your workshop would look like. It doesn't need to be power point presentation, it can be outdoor activity even – it's no problem. **If you need some stuff – we would arrange it;)** Even a star

from the sky we would get for you!;) Please just decide which workshop you would like to prepare.

And there are workshops about:

- a) **Local youth councils**
- b) **Local youth centers**
- c) **Project management**
- d) **PR & marketing in projects**

Share your knowledge with others, show some good practices, explain your views. That's what it is about. **Write your decision in the FB group** to let to know others what topics they can choose.

And this is all for the 2nd infopack! If you have any questions, don't hesitate to ask.
